The Closest Thing To Closure

Haste The Day

The battle's over, my heart moves on
I kept my mouth shut
While you screamed and cried
All the lies, all the lies
The battle's over, my heart moves on
Stood and took the arrows
That cut through my heart
And I stood alone, and I stood alone
You broke down all my walls
I'll build them up again
The battle's over now, my heart moves on
Today I stand, to watch you fall
That's just to say I've had enough
Not even you can stop me now
My heart moves on, can't stop me now
Today I stand, to watch you fall
That's just to say I've had enough
Not even you can stop me now
My heart moves on, can't stop me now
My heart moves on
My heart moves on
My heart moves on
My heart
