

# Energy

## Inna

Live forever, be forever  
We live only for tonight  
We are energy when wish shine and la la la light  
In your heaven, is my heaven we go higher in the sky  
We are energy when wish shine and la la la la la light  
Dome let me hold you closer  
I want a feel your skin, feel you pull me in  
I'll be your tiny dancer  
Your hands up pull my way, sin we face to face  
Finally found  
My heart is a tramp  
I move to the south  
Estubikum one night  
I finally found  
The hero of the night  
We come aliiiiive  
Live forever, be forever  
We live only for tonight  
We are energy when wish shine and la la la light  
In your heaven, is my heaven we go higher in the sky  
We are energy when wish shine and la la la la la light

Dome tell me all your secrets  
Your love a sin your lies, look me in the eyes  
Reach from me true the darkness  
I'll catch you if fall we can conforous  
Finally found  
My heart is a tramp  
I move to the south  
Estubikum one night  
I finally found  
The hero of the night  
We come aliiiiive  
Live forever, be forever  
We live only for tonight  
We are energy when wish shine and la la la light  
In your heaven, is my heaven we go higher in the sky  
We are energy when wish shine and la la la la la light  
Live forever, be forever

We live only for tonight  
We are energy when wish shine and la la la light  
In your heaven, is my heaven we go higher in the sky  
We are energy when wish shine and la la la la light
