

# God Of Light

**Danzig**

I took the ride, I'm still alive  
Come back to let you know just what it's like  
Not scared to live, not scared to die  
I couldn't get there 'til I dropped inside  
Chaos in flames, I'm not afraid

It's the god of light inside  
I took the ride, know what it's like  
To let the snake, god come alive  
It's still alive, it never dies, it's the god of light inside
