

# Turn on

## Britny Fox

You're out-dated  
Get a reason to kick it down  
You gotta feel it  
Crank it up till the killer's out  
You got the fever  
Over-loaded on the heat again  
You're taking either  
Reachin' up for your number 10  
Turn on  
Higher than you ever wanted  
Turn on  
Higher than you ever needed  
You got this trouble  
Falling off what you're hangin' on  
You got to get her  
Save the girl right before the dawn  
You got the answer  
Shine a light from inside your head  
You win the dancer  
Now we all rock the world again  
Turn on  
Higher than you ever wanted  
Turn on  
Higher than you ever needed  
Turn on  
Higher than you ever wanted  
Turn on  
Higher than you ever wanted  
Turn on  
Higher than you ever needed  
...
