Dear Enemy

Shakra

You're pretending to be something you're not
You're collecting a head full of rot
You're self righteous, the butt of the joke
And its a secret, everyone knows

[Chorus]
You know you know you know you know it
You show you show you show you've shown it
My dear enemy, backstabbing me
Like a friend to me, like you seem to be

You think I don't see
You backstabbing me
Like a friend to me
My dear enemy
You're condescending with every word
It makes you happy but what is it worth?
You're like a virus eating my skin
Its a problem I think its a sin

[Chorus]
