

Look at That Cadillac

Stray Cats

Oh, wake up in the morning,
Brush my teeth and comb my hair.
Well, wake up in the morning,
Brush my teeth and comb my hair.
Well, there's a big black Cadillac parked in the street over there
Well, it's the finest lookin' car that ever rolled off the line
Any other car, you'd just be wastin' your time
Well, one fine day I'm gonna make a Cadillac mine.[Chorus:]
I gotta get a Cadillac
Look at that Cadillac, look at that
Look at that Cadillac, look at that
Rollin' down the avenue
I'm gonna get me a Cadillac, too, if it's the last thing I do. Well, I got a job down at the liquor store
Well, I got a job down at the liquor store
Whoa, I ain't lazy but I don't want to work no more
When I get my pay-checke put it right in the bank
I'm puttin' all my money straight right in the bank
Well, I'm a half way to gettin' my big black Cadillac tank! [Chorus] Whoa, sittin' in a bar knockin' em back, up
pulls a big black Cadillac
Out steps a kitten, stand back cats, 'way I go in that Cadillac!
Look at that, [Chorus] I gotta get a Cadillac
Look at that Cadillac, look at that
Look at that Cadillac, look at that
Rockin' n' rollin' down the avenue
I'm gonna get me a Cadillac too, if it's the last thing I do.
