

# For Eternity

## The Nelons

[Lyrics: Stefan]pictures of euphoria in a long forgotten memory  
in the fields of eternity we were  
a lifetime in heavenly spheres  
utopia...we had it in our minds  
the crimson sky is our guard to protect us from invading sins  
living in immortality a life in love and peace  
don't you turn away...all we need is  
to stay together...forever and ever  
times of joy is all we know  
playing on grounds of imagery  
dancing on graves to love the dead  
laughing to fade our cries away...  
our wings won't break cause we fly  
through eternal skies where we can't grow weary  
...our blood flows on...  
...and on...we're chained...we're one  
...one we are...  
the truth is our weapon in a war of lies  
we are the chosen ones to live in our human world
