

Money, Money, Money

Lucky Dube

Don't tell me love makes the world go round
That is how it used to be
So many years ago yeah
These days we're living in
Everything needs a dollar
These days we're living in
Everything needs some money
You can't get no love without the dollar
You can't get no justice without the dollar
So everything is.....Chorus:
Money money money yeah repeat chorus
Dollar dollar dollar yeah Judge dread I know I've done something wrong here
And today you're here
To put me away forever
But before you bring that hammer down
Look what I have in my hand
Yeah, the wheels of justice
They turn so slow
But with this we can make them turn faster
Than a rocket in my favour
Doesn't matter what they say
I've done here today
Just look the other way
Like you always do
When you see.....Chorus till fade
