Love

American Authors

Remember when we were lost at sea?
We would look at the bright night sky
Thinking of, what we could be
What we could be
How to spend our livesRemember when we had nothing left?
We were strung out in the cold
Holding on, trying to save our breath
Trying to save our breath
We would not let go(Whoa)
Through the good, through the bad and ugly
(Whoa)
We'll conquer anything'Cause one day we're gonna come back
And laugh at it all
One day we'll look at the past
With love, love
One day we're gonna come back
And relive those thoughts
One day we'll look at the past
With love, love
With love, loveRemember down in the forest heart
We were lost, losing hope and faith
We put our trust in counting stars
We were counting stars
Trying to find our way
Remember up on the mountain top
Looking out on the rocks below
Thinking God, we will never stop
We will never stop
No we won't let go'Cause one day we're gonna come back
And laugh at it all
One day we'll look at the past
With love, love
One day we're gonna come back
And relive those thoughts
One day we'll look at the past
With love, love
(Love, love)Like a scene from the past
Where we look back and laugh
With love, love

A thought like a flash
Black and white, hope it lasts
With love, love
Like a scene from the past
Where we look back and laugh
With love, love
A thought like a flash
Black and white, hope it lasts
With love'Cause one day we're gonna come back
And laugh at it all
One day we'll look at the past
With love, love
One day we're gonna come back
And relive those thoughts
One day we'll look at the past
With love, love
(Love, love)
With love, love
