

Shoot the Moon

Face to Face

Back in '95 when this was new I guess I didn't have a clue
I thought the world would change with the right song So we picked it up and moved it out And turned the whole
thing upside down
I told myself it wouldn't be too long And I believed in everyone And everything they told me And I believed that
anything Anything was possible Shoot the moon
Shoot the moon Hit or miss it makes no difference
Shoot the moon Back when everything was looking up
I thought I'd never get enough I didn't let the world obstruct my view And we thought that it would never end
We had our fun in spite of it And paved the way for something slightly new Graded On A Curve
