

# Outta My System

## Simple Plan

I try to brush it off  
Keep calm and collected  
But it just won't work  
They tell me read a book  
Learn to cook  
Anything to keep your mind off her And now I'm so  
Tired of feeling so low  
Seven weeks in a row  
I don't wanna hear about  
Don't wanna think about you I wanna make out with a perfect stranger  
Get loud need a mind eraser  
Drink up, tonight I'm on a mission  
To get you outta my system  
Downtown, I'll be up all night  
Get lost in the flashing lights  
Drink up, tonight I'm on a mission  
To get you outta my system I try to be mature  
Stay polite  
But I'm really thinking what's it worth  
When deep inside of me  
I can't breath  
I'm a victim of a love sick curse And now I'm so  
Tired of taking it slow  
Seven weeks in a row  
I don't wanna hear about  
Don't wanna think about you I wanna make out with a perfect stranger  
Get loud need a mind eraser  
Drink up, tonight I'm on a mission  
To get you outta my system  
Downtown, I'll be up all night  
Get lost in the flashing lights  
Drink up, tonight I'm on a mission  
To get you outta my system Outta my system  
Outta my system  
Outta my system It's been so long since I've been myself  
Talking like, walking like someone else  
Feels so good to get back to me  
Rid myself of this misery  
Now I'm here coming back to life

Turning my wrongs all back to right  
I was way down, I was locked up  
Now I'm free I'm gonna make out with a perfect stranger  
Get loud need a mind eraser  
Drink up, tonight I'm on a mission  
To get you outta my system  
Downtown, I'll be up all night  
Get lost in the flashing lights  
Drink up, tonight I'm on a mission  
To get you outta my system Outta my system  
Outta my system  
Outta my system
