Don't Freak Out

[Orphan Twins](#)

Ooh-la-la-la
Ooh-la-la (x2)I've been running circles around my past
Spending all my time with a photograph of you
Going to the start of the aftermath
Somewhere down the line everything went bad with you
What could we do?
You always used to tell meDon't freak out
Just keep it together
Oh, but whatever, no
Don't freak out
Things are changing all the timeTraveled to the future and things look bleak
Speaking a language that no one speaks but you
I don't feel different, yeah, I'm still myself
What the hell's wrong with everybody else?
And you, I need something newDon't freak out
Just keep it together
Oh, but whatever, no
Don't freak out
Things are changing all the time
Don't freak out
All the storms that you'll weather
Won't be forever, no
Don't freak out
It's alright, I'll be fineI've been running circles around my past
Spending all my time with a photograph of you
What could we do?
You always used to tell meDon't freak out
Just keep it together
Oh, but whatever, no
Don't freak out
Things are changing all the time
Don't freak out
Don't freak out
Oh-oh-oh
Don't freak out
It's alright
