## This Town Needs Guns

So come on lets  
chase those memories away  
and drink the night into oblivion.Ive been watching you  
and memorised  
every last line of your profile.  
Every shade of your complexion,  
every tone of your skin.  
And I am not surprised to find  
you in his eyes.  
Hanging on every word  
dropped from his mouth.Cos lately Ive been watching you.  
Ive been waiting for  
you to take me home.So tell me all of your deepest dark secrets  
Lying in your arms inseparable.
