

Turn the Radio Up

Barry Manilow

C'mon everybody open up your windows
Turn on the music, turn on the music
C'mon everybody open up your windows
Turn on the music, turn on the music When I feel that this old world
Is just too hard to bear
People comin' at me
Left and right, day and night
Here's the thing I do I turn the radio up, hear the melody
I turn reality down
There's too much talk about blues
Too much of the time
Turn the radio up, hear the harmony
Turn the negative down
Turn the radio up
Everything will be found
Everything will be found Worryin' don't do no good
So throw your cares away
Come on people life's too short to stay
Hey hey, everybody now Turn the radio up, hear the melody
Play it all over town
There's too much talk about blues
Turn the bulletins down
Turn the radio up, hear the harmony
Don't 'cha be so profound
Turn the radio up, it'll turn you around
Turn the radio up Don't give in, no matter what they say
Out with the negative
You find the positive way
Hey, hey, hey Turn the radio up, up with harmony
Pandemonium down
There's too much talk about blues
All over this town, hey, hey, hey Turn the radio up, hear the melody
Don't you be so profound
Turn the radio up, it'll turn you around
Turn the melodies up
Turn the harmony up
Turn the radio up
