

# The Lantern

## Most Precious Blood

You were supposed to be invincible Invincible What happens to you Happens to me Solidarity Forever family  
I'd give my own life Just to save yours My true creator When death darkens the door Love is stronger than  
death You are stronger than death What have you seen through those eyes? Tell me what real fear is like No  
solace when nothing is sure This time I won't question the cure You were supposed to be invincible Invincible  
What happened to you Happened to me Solidarity Immortality I'd give my own life Just to save yours My true  
creator When death darkens these doors Love is stronger than death You are stronger than death What have you  
seen through those eyes? Tell me what real fear is like No solace when nothing is sure This time I won't  
question the cure Carry the lantern high
