

Let U go (DJ's team)

ATB

"I've been to all the familiar places
I've been running like a sentence
 Never begun
I've been looking for a way to let you know
 I got nothing left to fill out spaces
 I got nothing but a septum coming undone
I've been doing circles and it showsEvery cloud in the sky
 Every place that I hide
 Tell me that I,
 I was wrong to let you go
 Every search that I heel
 Every flower that I feel
 Tell me that I,
I was wrong to let you goLet you go, Let you go, Let you go x4"
 Its the little things that make you crazy
Like the thought of someone else touching your skin
 I can see you everywhere i go
 It could be the sight of your face
 It could be the aroma of your breath
Still as the river as it flowsEvery cloud in the sky
 Every place that I hide
 Tell me that I,
 I was wrong to let you go
 Every search that I heel
 Every flower that I feel
 Tell me that I,
I was wrong to let you go
