

# No Shelter

## Blouse

We can't keep anything  
Words lose our minds  
The sky is getting crowded  
But it's a different kind.  
Where is my shelter from this storm  
Nothing in nature can make my body warm.  
There is no shelter from this kind of cold  
Give me your body and anything it holds. Let's get alone again, so far away  
Let me show all my friends  
And won't even kiss me for a day!  
We can't keep anything  
. our minds,  
The sky is getting clouded  
But the clouds are different this time...  
Where is my shelter from this storm  
Nothing in nature can make my body warm.  
There is no shelter from this kind of cold  
Give me your body and anything it holds. Must be a long day so far away  
...love my friends,
