Irresistible

Scarlet Kill

She breaths me in
And draws the heart out of my love
She pulls me close
And puts her poison on my tongue
I took the chance
Let the angel slip through my, my filthy hands
Her black heart is beating once again

Irresistible
You played your cards right this time
But I'm not backing down
Her little dress lies on the ground
Just gives me one last time

Her sweet demise
Another toxic silhouette
Her loaded gaze
She's running circles through my head
I'm sick of these games
I sing she sold me her facade
Her crooked smile
She's sending me into a graze

Irresistible
You played your cards right this time
But I'm not backing down
Her little dress lies on the ground
Just gives me one last time

You thought you fooled me with your innocence
You really got me with your big red lips
Oh baby, baby, this is out of line
You got me this time
I'm just a man who can put up in consequence
Wish i knew the difference then
Between love and you my friend

You played your cards right this time
But I'm not backing down
Her little dress lies on the ground

Just gives me one last time

You thought you fooled me with your innocence
You really got me with your big red lips
Oh baby, baby, this is out of line
You got me this time
