Just To Make You Happy

28 Days

I can not hang on to this bullshit forever
Can you
If you can that's up to you
We are so foolish
All this coolness can be fickle
Lacking in information
And I'm quickly loosing patience
I'm jaded just like you
And if you want me to
I'll show you all of my bank statements
Just got off the welfare payments
I'm not going back to having nothing
Just to make you happy
Just to make you happy
I don't want to be the one
Who tells you what you want to hear
I don't want to be the one
I don't want to be the one
Who tells you what you want to hear
I don't want to be the one
I do this for the love of it
While jealous people e-mail bullshit
But it's okay
We get to play our songs
And we've done nothing wrong
So sit at your computer screen
Think of something safe and mean
'Cause I'm not going back
To having nothing
Just to make you happy
Just to make you happy
I don't want to be the one
Who tells you what you want to hear
I don't want to be the one
I don't want to be the one
Who tells you what you want to hear
I don't want to be the one
I can't believe that we can
Hang on to this bullshit forever

Together
I do this for the love of it
While jealous people e-mail bullshit
But it's okay
We get to sing our songs
And we've done nothing wrong
So sit at your computer screen
Think of something safe and mean
'Cause I'm not going back to having nothing
Just to make you happy
Just to make you happy
I don't want to be the one
Who tells you what you want to hear
I don't want to be the one
I don't want to be the one
Who tells you what you want to hear
I don't want to be the one
Just to make you happy
Just to make you happy
Just to make you happy
Just to make you happy
Just to make you happy
Just to make you happy
