

Heartless

Bananarama

Heartless, heartless
Heartless Your love is too cold to handle
And I should have realized
When I try to talk it over
You always close your eyes How can I ever love you
When you won't let me through to you 'Cause you're heartless
How could you be so heartless
I can't believe anybody could be
So heartless You never show your feelings
Just look the other way
When I try to show affection
You always walk away How long must you keep me waiting
Maybe you'll never change 'Cause you're heartless
How could you be so heartless
I can't believe anybody could be
So heartless I can't believe anybody could be
I can't believe anybody could be
So heartless How can I ever love you
When you won't let me through to you 'Cause you're heartless
How could you be so heartless
I can't believe anybody could be
So heartless 'Cause you're heartless
How could you be so heartless
I can't believe anybody could be
So heartless 'Cause you're heartless
How could you be so heartless
I can't believe anybody could be
So heartless
