

# Phoenix Burn

## Alpha Rev

I need love that will release me  
Keep me honest, keep me happy  
I need a peace with understanding  
Trying to find a softer landing  
I need to know when I can change this  
Give it up and just embrace it  
I need to find a way of letting it go  
When everything falls apart  
I've taken too much, given up  
I am twisted, burning, breaking up  
I need to find a way of letting it go  
When everything falls apart  
I could try but I'd never take it  
Yell and I will never be heard  
You will be my Phoenix burn  
I could run but I'd never reach it  
Leave but I might never return  
You will be my Phoenix burn  
I need to push through the undiscovered  
Find my answers, leave them uncovered  
I wanna speak out what I believe in  
That love will heal us, give us our freedom  
I need to know what's on the horizon  
Change directions, stop the fighting  
I need to find a way of letting it go  
When everything falls apart  
I've taken too much, given up  
I am twisted, burning breaking up  
I need to find a way of letting it go  
When everything falls apart  
I could try but I'd never take it  
Yell and I will never be heard  
You will be my Phoenix burn  
Let me burn, let me burn  
I've taken too much, given up  
I am twisted, burning breaking up  
I need to find a way of letting it go  
When everything falls apart  
I could try but I'd never take it

Yell and I will never be heard  
You will be my Phoenix burn  
You will be my Phoenix burn
