

Shines Right Through Me

Great Big Sea

These days I feel a change, all the patterns rearranged
Though I can't explain, I know, I'm not afraid
Now I realize, all good things can be supplied
And they come from you, they come from you It's all brand new and it shines right through
Shines right through me
I look at you and it shines right through
Shines right through me This feeling that I've found is like sleeping on a cloud
Smiling at the sky, not even knowing why
It's strange how things work out but I know without a doubt
That it comes from you, it comes from you It's all brand new and it shines right through
Shines right through me
I look at you and it shines right through
Shines right through me Break me out of emptiness, lead me to your light
Anything worth having is worth some sacrifice
I laid too long in loneliness, this world was made to change
Half an hour of sunshine is worth a week of The air is flowing free, it's a little easier to breathe
This soul unbound was lost and found
No reason left to hide 'cause I feel a light inside
And it comes from you, it comes from you It's all brand new and it shines right through
Shines right through me
I look at you and it shines right through
Shines right through me I look at you and it shines right through
Shines right through me
I look at you and it shines right through
Shines right through me, shines right through me
