Love 101

E. Bland

Treat her like you wanna be treated
Give her everything under the sun
You're on your way to a grade A in love
Love 101
Tell her that you don't want no other
Show her that your wild days are gone
You're on your way to honors in
Love 101
Sometimes she will get you in trouble
Sometimes she will make you stay late
When that comes and she's in your arms
That's love 101
It ain't always gonna be easy
You might have to work into late
But with a little commitment
Given time, I'm sure you'll find
We all will graduate love 101
Love 101
Close your eyes so you can remember
Someone you can never forget
The people, the places, the starring roles
In your love 101
It ain't always gonna be easy
You might have to work into late
But with a little commitment
Given time, I'm sure you'll find
We all will graduate love 101
Love 101, love 101, love 101
Love 101, love 101, love 101
Love 101, love 101, love 101
Love 101, love 101
