

# No Smoke Without A Fire

## Bullet 5

Ooh, youre like a book with a page torn out  
You can turn from a whisper to a shout, ooh yeah  
You come running just as fast as you can  
Into the arms of another man, yeah But you can do what you wanna do now  
Tell me what you wanna say  
You can take what you wanna take  
Babe, take it all away Oh, theres no smoke without a fire and theres no heat without a flame  
Oh, theres no love without desire but I wont play your games  
Ooh, youve got the looks that can turn a head  
Youve got a turn that can leave a man dead, ooh yeah You keep tellin me our love is alright, you disappear  
You dont come home all night, just tell me what  
You wanna do now, tell me where you wanna go  
Its your life, you can do what you want, baby let me know Oh, theres no smoke without a fire and theres no heat  
without a flame  
Oh, theres no love without desire but I wont play your games  
Ooh, youve got the looks that can turn a head  
Youve got a turn that can leave a man dead, ooh yeah You keep tellin me our love is alright, you disappear  
You dont come home all night, just tell me what  
You wanna do now, tell me where you wanna go  
Its your life, you can do what you want, baby let me know Please dont ask me why, 'cause I cant quite explain  
Im like a moth to your flame, yeah, just tell me  
What you wanna do now, tell me where you wanna go  
Its your life, you can do what you want, baby let me know, yeah Oh, theres no smoke without a fire and theres  
no heat without a flame  
Oh, theres no love without desire but I wont play your games  
Ooh, youve got the looks that can turn a head  
Youve got a turn that can leave a man dead, ooh yeah You keep tellin me our love is alright, you disappear  
You dont come home all night, just tell me what  
You wanna do now, tell me where you wanna go  
Its your life, you can do what you want, baby let me know  
Lets talk about it Oh, theres no smoke without a fire and theres no heat without a flame  
Oh, theres no love without desire but I wont play your games  
Ooh, youve got the looks that can turn a head  
Youve got a turn that can leave a man dead, ooh yeah You keep tellin me our love is alright, you disappear  
You dont come home all night, just tell me what  
You wanna do now, tell me where you wanna go  
Its your life, you can do what you want, baby let me know
