

Bokkie

Elefant

Jumping with your eyes closed
Landing on the sun
Being young and beautiful
In love with no one but yourself
And people tell you you're pretty yeah
Your smile drives them crazy, lady
You wanna slowly fade away
But you can't, so you stay
Playing for the public
Making them love you, you're so cruel
And people tell you you're pretty yeah

Your smile drives them crazy, lady
You wanna slowly fade away
But you can't, so you stay with me, with me, Bokkie
Pa pa pa
I'm on an island for two
And people tell you you're pretty, yeah
Your smile drives them crazy, lady
You wanna slowly fade away
But you can't so you stay with me, with me, with me
Yeah, yeah, yeah, yeah, yeah, yeah
[Incomprehensible]
