Can't Get Down

Tank

I can't get down
I can't get down with you no more
I can't get down
I can't get down with you no more
I can't get down
I can't get down with you no more
I can't get down, oh oh
I can't get down
I can't get down with you no more
I can't get down
I can't get down with you no more
I can't get down
I can't get down with you no more
I can't get down, oh yeah
I remember when, we were the best of friends
Love was in the air, nothin' can stop us then
Walkin' hand and hand, bear feet in the sand
Eveything was cool, now I don't understand
We don't hit the streets, like we use to win my six
Almost seems as if, found someone new to roll with
No more ice out things, no more shoppin' sprees
So where you gettin' it from 'cause you ain't gettin' it from me, oh
One, you're runnin' game
Two, you don't act the same
Three, you're cheatin' on me
Four, behind closed doors
Five, it was just last night
Six, ain't takin' it no more
One, you're runnin' game
Two, you don't act the same
Three, you're cheatin' on me
Four, behind closed doors
Five, it was just last night
Six, ain't takin' it no more
Why the late phone call? Why the late night trip?
Your girlfriends car broke down, who you think you dealin' with?
I done peep your game, every night excuse's the same
Girlfriend this, girlfriend that, I'm tired so Monday
I gets in my ride to see just where you are

You're leavin' the liquor store with two bottles of White Star
Ride on up the street, check in to a room
A nigga in a Range Rover was feelin' all over you
I knew you was runnin' game
One, you're runnin' game
Two, you don't act the same
Three, you're cheatin' on me
Four, behind closed doors
Five, it was just last night
Six, ain't takin' it no more
One, you're runnin' game
Two, you don't act the same
Three, you're cheatin' on me
Four, behind closed doors
Five, it was just last night
Six, ain't takin' it no more
Ooh
Seven, see more niggas on the side
Eight, is always out all night
Nine, just keeps on makin' up lies
Ten, don't care that it ain't right
Eleven, it's just like seven
Twelve, won't make you change
Thirteen, why me?
Fourteen, oh, I'm beggin' you down on my knees
Fifteen, take this pain away please
I'm so tired of countin' things wrong
So the hell with you, get gone
One, you're runnin' game
Two, you don't act the same
Three, you're cheatin' on me
Four, behind closed doors
Five, it was just last night
Six, ain't takin' it no more
One, you're runnin' game
Two, you don't act the same
Three, you're cheatin' on me
Four, behind closed doors
Five, it was just last night
Six, ain't takin' it no more
That's why, I can't get down
I can't get down with you no more
I can't get down
I can't get down with you no more
I can't get down

I can't get down with you no more
I can't get down
Ooh no no no, I can't get down
I can't get down with you no more
I can't get down
I can't get down with you no more
I can't get down
I can't get down with you no more
I can't get down, ohh
One, you're runnin' game
Two, you don't act the same
Three, you're cheatin' on me
Four, behind closed doors
Five, it was just last night
Six, ain't takin' it no more
