My World Stopped Turning

George Ducas

My world stopped turning when you walked away
My heart's still breaking both night and day
The sun has stopped shining, seasons don't change
And my world stopped turning when you walked awayI never knew how I needed you
I couldn't see what you meant to me
But now that you're gone
There's no way to carry onMy world stopped turning when you walked away
My heart's still breaking both night and day
The sun has stopped shining, seasons don't change
And my world stopped turning when you walked awayThe sun has stopped shining, seasons don't change
And my world stopped turning when you walked away
Yes, my world stopped turning when you walked away
