

# Anthem

## Superchick

Here's to the ones who don't give up

[3x]

This is your anthem, get your hands up

We are fire inside, we are lipstick and cleats

We are not going home, and we are playing for keeps

We are girls with skinned knees, we are concrete and grace

We are not what you think, you can't keep us in our place  
Here's to the girls on their boards with bruises and scars

Here's to the girls whose fingers bleed from playin guitar

Here's to anyone who never quit when things got hard

You'll never let them say you'll never get that far  
We are fire inside, we are an army asleep

We are a people awaking to follow their dreams

We don't have time for your games

We have our own goals to score

There are trophies to win instead of being one of yours  
Here's to the girls on their boards with bruises and scars

Here's to the girls whose fingers bleed from playin guitar

Here's to anyone who never quit when things got hard

You'll never let them say you'll never get that far  
Here's to the ones who don't give up

[3x]

This is your anthem (anthem)  
Here's to the girls on their boards with bruises and scars

Here's to the girls whose fingers bleed from playin guitar

Here's to anyone who never quit when things got hard

You'll never let them say you'll never get that far
