

# Try a Little Tenderness

**Jimmy Durante**

In the hustle of today  
We're all inclined to miss  
Little things that mean so much  
A word, a smile, a kiss  
When a woman loves a man  
He's a hero in her eyes  
And a hero he can always be  
If he'll just realize She may be weary  
Women do get weary  
Wearing the same shabby dress  
And when she's weary  
Try a little tenderness You know she's waiting  
Just anticipating  
Things she may never possess  
But while she's without 'em  
Try a little tenderness It's not just sentimental  
She has her grief and care  
And a word that's soft and gentle  
Makes it easier to bear You won't regret it  
Women don't forget it  
Love is their whole happiness  
It's all so easy  
Try a little tenderness You won't regret it  
Women don't forget it  
Love is their whole happiness  
It's all so easy  
Try a little tenderness
