Day and Night

Majid Jordan

[Verse 1]
I know it may feel like you're wasting your time
But I hope and I pray that you never lose sight[Chorus]
You know what to do
You know what to do
You know how to ease my mind
You know what to do
Now that I'm with you
I love you and you love me
Day and night
Day and night
Because I treat your body right
Your body right
Your body right
You got a heart of gold[Verse 2]
I know how it feels, when there's nowhere to hide
But here, as we speak, I feel madness subside[Chorus]
You know what to do
You know what to do
You know how to ease my mind
You know what to do
Now that I'm with you
I love you and you love me
Day and night
Day and night
Because I treat your body right
Your body right
Your body right
You got a heart of gold[Bridge]
A heart of gold
A hand to hold
A good soul
That's what I'm looking for
I want somebody real
To show me how it feels
So if it feels good, don't let me down[Chorus]
You know what to do
You know what to do
You know how to ease my mind

You know what to do
Now that I'm with you
I love you and you love me
Day and night
Day and night
Because I treat your body right
Your body right
Your body right
You got a heart of gold[Outro]
Now dance with me
Now dance with me
Now dance with me
Now dance with me
(You got a heart of gold)
Now dance with me
D-Day and night
D-Day and night
D-Day and night
D-Day and night
(You got a heart of gold)
(You got a heart of gold)
(You)
Day, day, day
Day, day, day and night
Day, day, day
Day, day, day and night
