Confessions

The Trews

Ya try to think of a human
Civilization and everybody's cryin'
'How are we to explain things?'
Easy,easy
Neurotic, psychotic and anxious
Has a dream about humanLanguage and finally find the
Words to say, easy easy
Confessions kill you over time
Confess your love leave me behindKeep me up all night like a saint
In the twilight hour
I don't need no one, I just
Want someone to lieMaybe in my tomb I'll evade
The madness, reinvent and
Sculpt and package find a
Luminary plain, easy easyConfused by the blandness and
The trials of hurt and sadness and
Not knowing anything, easy easy
Confessions kill you over time
Confess your love leave me behindKeep me up all night like a saint
In the twilight hour
I don't need no one, I just
Want someone to lieKeep me up all night like a saint
In the twilight hour
I don't need no one, I just
Want someone to lieTry to think of a human civilization
And everybody's cryin' 'How are
We to explain things?" Easy, easy
Neurotic, psychotic and anxious
Has a dream about human baggage
And finally throws it all awayKeep me up all night like a saint
In the twilight hour
I don't need no one, I just
Want someone to lieKeep me up all night like a saint
In the twilight hour
I don't need no one, I just
Want someone to lie
