Where You Wanna Go

Jeremy Dyen

You've been over
You've been out
You've been everywhere they said the good life wasYou've been outside
You've been hit upside
And everywhere they say the good life wasLet me take you where you wanna go...You've injested
You've invested
But either way you can't maintain the buzzYou're in a circle
You're stuck in circles
But never did find where the good life wasLet me take you where you wanna go...
