

Night Ranger

Night Ranger

In the cool city, in the heat of the night
Looking for adventure on the face of the light
A Colorado school boy put his days on the line
Nights out of paperback, 'Catcher In The Rye'

Night ranger

Where you gonna run to now?

Night ranger

Ranger

He met her at a rock show, skin tight jeans
Heavy metal leather hanging from her seams
He took her to a late night, she put her heart on the line
Left her standing in the doorway singing, "Thanks for the good time"

Night ranger

Where you gonna run to now?

Night ranger

Ranger

Night ranger

Where you gonna run to now?

Night ranger

Ranger

I can hear you calling, calling
I can hear you calling, night ranger
I can see you falling, falling
I can see you falling, night ranger
Where you gonna run to now?

Night ranger

In the hot city on a cool summer night
Four letter words make it alright
A Colorado school boy put it all on the line
Under the street lights having a good time

Night ranger

Night ranger

Night ranger

Night ranger

I can hear you calling, calling
I can hear you calling, night ranger
I can see you falling, falling
I can see you falling, night ranger
Where you gonna run to now?

Night ranger
