

Last Year

Best Coast

I used to believe in diamonds and things
I used to believe in you and me
But now I believe in nothing I used to wake up in the morning
And reach for that bottle or glass
But I don't do that anymore
Kicked my habits out the front door And I'm always talking to somebody else
She doesn't even know my face
I don't know how I feel
I'm all over the place And when I go out, I don't feel anything
I just keep on spending my money
Soon it will be gone
And then I'll have to write another song What a year this day has been
What a day this year has been
Please, don't get me wrong
I just don't know where time has gone What a year this day has been
What a day this year has been
Please, don't get me wrong
I just don't know where my mind has gone
