

# Valentine

[Toby Keith](#)

I bought a card down at the drugstore  
It said I'm thinkin' of you  
I'm put some flowers on the table  
But I know you won't be home These are some of the little things  
That I do 'cause I still love you  
And today might be the hardest day  
I've had since you been gone Valentine, girl do you still think about me  
I still wake up at night callin' out your name  
And the roses are there, paper hearts are everywhere  
But the fourteenth of February will never been the same Where did we go wrong Val  
I thought we had it made  
Was it just my wishful thinkin'  
Is it supposed to be this way Oh, but I still feel the magic  
That comes this time of year  
When everybody's got a sweetheart  
And I'm wishin' that you were here Valentine, girl do you still think about me  
I still wake up at night callin' out your name  
And the roses are there, paper hearts are everywhere  
But the fourteenth of February will never been the same And the roses are there, paper hearts are everywhere  
But the fourteenth of February will never been the same Valentine  
Valentine  
Oh, my valentine
