Mandatory Suicide

Decapitated

Murder at your every footstep
A child's toy sudden death
Sniper blazes you through your knees
Falling down can you feel the heat burnAmbushed by the spray of lead
Count the bullet holes in your head
Offspring sent out to cry
Living mandatory suicide, suicideHoles burn deep in your chest
Raked by machine gun fire
Screaming skull sent out to die
Living mandatory suicide, suicideLying, dying, screaming in pain
Begging, pleading bullets drip like rain
Minds explode pain shears to your brain
Radical amputation this is insaneFly swatter stakes drive through your chest
Spikes impale you as your forced off the crest
Soldier of misfortune hunting with bated breath
A vile smell like tasting deathDead bodies dying and wounded litter the city streets
Shattered glass bits of clothing and human deceit
Dying terror, bloods cheap it's everywhere
Mandatory suicide massacre on the front line
