

# The Power of Persuasion

## ABC

Cock a snoot, loop the loop, hock the hula-hoop  
But now it yo-yod back again shiver me timbers  
Just jumped ship with a little faith  
We could win the championship Parachute substitute, problem is its so cute  
Workless, cashless, hungry and in debt  
Outta house, outta home, outta pocket They persuade you, that they made you then betrayed you  
And they blame you with the power of persuasion  
The power of persuasion, the power of persuasion  
The power of persuasion You bought the troll, you bought the gonk  
You took it home and put it on a pedestal  
We needed a savior but from its behavior  
Why did it have to be so extra-terrestrial? Tax deductible, cash corruptible  
Never the less another pools winner  
Penniless dog tooth check, cash and carry find a girl  
Settle down and marry They persuade you, that they made you  
The proclaim and theyll maim you with the power of persuasion  
The power of persuasion, the power of persuasion  
The power of persuasion I sold the Eskimo snow  
Build the skyline outta play do  
Persuading you that monochrome is day glow With the power of persuasion
