

That's a Friend

BeBe Winans

Tell me where were you
When my world was burning
Spinin' outta control? Tell me where were you
When the tears are fallin'
And the cold wind started to blow? See baby, that's the time when the heavens reveals
Who stays and who has to go
And when I needed him most
He was there for me, there for me He is somebody who is faithful to me
Someone the time has proved you can be there
And if you call no matter where
Is everything okay? I am on my way
Now that's a friend Somebody you can lean on, laugh and cry
Not only words but actions exemplify
You don't have to have a reason why
I'll be there for you to catch you through
Yes that's a friend Now you were there for me
Now I wanna thank you
I am sure, you already know
You're such a gift from God
I will take for granted right now I just wanna show
Show you the way I feel
What I think about you
I think you're pretty okay
When I needed you most
You were there for me You, somebody who is faithful to me
Someone the time has proved you can be there
And if you call no matter where
Is everything okay? I am on my way
Now that's a friend Somebody you can lean on, laugh and cry
Not only words but actions exemplify
You don't have to have a reason why
I'll be there for you to catch you through
Yes that's a friend A friend will always tell the truth
Even when it hurts sometimes
And a friend will always remain true
No matter what, when or why And a friend will tell you when you're wrong
Still stand by your side
Best or worse, the friends go straight
They never say goodbye Somebody who is faithful till the end

Someone the time has proved you can be there
And if you call no matter where
Is everything okay? I am on my way
Now that's a friend Somebody you can lean on, laugh and cry
Not only words but actions exemplify
You don't have to have a reason why
I'll be there for you to catch you through
Yes that's a friend Somebody who is faithful till the end
Someone the time has proved you can be there
And if you call no matter where
Is everything okay? I am on my way
Now that's a friend Somebody you can lean on, laugh and cry
Not only words but actions exemplify
You don't have to have a reason why
I'll be there for you to catch you through
Yes that's a friend Somebody who is faithful till the end
Someone the time has proved you can be there
And if you call no matter where
Is everything okay? I am on my way
Now that's a friend Somebody you can lean on, laugh and cry
Not only words but actions exemplify
You don't have to have a reason why
I'll be there for you to catch you through
Yes that's a friend
