

Thank You My Friend

Molly Jenson

As I begin
Let me say that I'm afraid
Seems to me that all these things
Could go either way I suppose I could fold up
Into my self quite safe
And wait for these pieces
To fall into place But not today Thank you my friend
For taking my hand
Walking with me all the way I hope and I pray that one day
I will do for you the same
I will do for you the same God bless the day
That you came my way
Just like the sun
That chases the rain away And I don't know how
I'd get by with out you
But the good news is
I don't have to Thank you my friend
For taking my hand
Walking with me all this way I hope and I pray that one day
I will do for you the same
I will do for you the same
