Icecream

Mambo Masters

Ice cream, Ice cream
Yea baby, wanna lick this ice cream?
Gotta little bit of banana, chocolate, no!
Whoop whoop, whoop whoop
Whoop whoop, whoop whoop
I am the ice cream man, known as Mellow
Now would you like to say, "Hello" to my fellow
Me and my amigos, sittin' all on a bench
Somewhere down in Puerto Rico
Two coco honey's step by, they lookin' magnefico, so I
Step to 'em yea "How you doin'?"
I took a close second 'cause I knew that I knew 'em
Bingo let me drop all my lingo
I make you understand, that I am still single
So honey don't you worry, no way
I got a truck full of plastics here to stay
Whoop whoop
Just slide a little
Whoop whoop
Just ride a little
Whoop whoop
Baby baby get down
Little in the middle, surrounded by a big round
Whoop whoop
Just slide a little
Whoop whoop
Just ride a little
Whoop whoop
Baby baby get down
Little in the middle, surrounded by a big round
Chocolate, banana, vanilla flavor
You can try any damn thing, I do you that favor
But later on you got to be here by my side
Waitin' on a saddle to ride
We gonna do a thing that's mega
I am havin' way more sex than kiddies playin' Sega
Like Noriega, I am dictatin' the game
And I don't stop, until you scream out my name
So honey don't you worry no way

I got a truck full of plastics here to stay
Whoop whoop
Just slide a little
Whoop whoop
Just ride a little
Whoop whoop,

Baby baby get down
Little in the middle, surrounded by a big round
Whoop whoop
Just slide a little
Whoop whoop
Just ride a little
Whoop whoop
Baby baby get down
Little in the middle, surrounded by a big round
Whoop whoop whoop
Having fun
Now would you all slide a little, ride a little, smile a little
And spend a little time baby?
Would you all, stop standin' around?
Bring that butt on the dance floor
Let's get it on, tonight's the night
Common, common
That's how you like it, common
Whoop whoop
Just slide a little
Whoop whoop
Just ride a little
Whoop whoop
Baby baby get down
Little in the middle, surrounded by a big round
Whoop whoop
Just slide a little
Whoop whoop
Just ride a little
Whoop whoop
Baby baby get down
Little in the middle, surrounded by a big round
Whoop whoop
Just slide a little
Whoop whoop
Just ride a little
Whoop whoop
Baby baby get down

Little in the middle, surrounded by a big round
Whoop whoop, whoop whoop
Whoop whoop, whoop whoop
Whoop whoop
