Come Alive

Azarelle

[Verse 1]
Solve this problem
It's obvious to see
You're good with numbers
Subtract them all and you got me

You show off
let's try not to pretend
Just when you thought you'd never fall
Made you lose control

Tell me when you're ready
Cause I ain't got all day
And it's brighter
When you don't bring the rain

It's all in the name of love (Oh we can go so far)
You know what they say about this love
Don't cost a thing

[Prehook]
Cause it'll be alright when you're with me
Baby close your eyes and then you'll see
There is a first time for everything
Baby start with me (Promise I will)
Give you somethin you've been dreamin

[Hook]
Babe (Oooh)
Baby (Oooh)
Take Flight (Come with Me)
I'll set you free and make you come alive (Oooh)
Tonight (Oooh)
Your mine
Come Alive (I hope you're ready)

[Verse 2]
Whisper all your secrets boy
Don't be afraid to
It's a simple equation

We equal 1 to 2
It's all in the name of love (Oh we can go so far)
Ride with me just rock with me and trust in me cause

[Prehook]
Cause it'll be alright when you're with me
Baby close your eyes and then you'll see
There is a first time for everything
Baby start with me (Promise I will)
Give you somethin you've been dreamin

[Hook]
Babe (Oooh)
Baby (Oooh)
Take Flight (Come with Me)
I'll set you free and make you come alive (Oooh)
Tonight (Oooh)
Your mine
Come Alive (I hope you're ready)

[Bridge]
Get away
Get away
Secret get away (get away)
Get away (run away)
Get away (run away)
Secret get away (secret get away)
(Come to me, you know where I am, you have the directions)

[Prehook]
Cause it'll be alright when you're with me
Baby close your eyes and then you'll see
There is a first time for everything
Baby start with me (Promise I will)
Give you somethin you've been dreamin

[Hook X2]
Babe (Oooh)
Baby (Oooh)
Take Flight (Come with Me)
I'll set you free and make you come alive (Oooh)
Tonight (Oooh)
Your mine
Come Alive
