Breaker Breaker

The Outlaws

Breaker breaker take me home
You know the one I wanna seeGimme your north bound seven five
I been headed for that campin' town
South bound is my rideEight more hours I'll be shiftin' gears
Look over your shoulder, guy
Won't you lend me your ears?It's been so long since I've seen my home
Got to get on down that road tonight
The one I love is waitin' there for me
With open arms and love in her eyesSeeing the days and the nights pass me by
I've been seeing the road signs
And white lines are in my eyesHands on the wheel with my radio on
This is pony boy breaker down
I'm goin' homeYou know I've tried to make the best of it
But there's somethings a man's just got to do
The big ten wheels keep on rollin' along
And I'll be there before the mornin' dewBreaker breaker take me home
Clear the highway for me
Breaker breaker take me home
You know the one I wanna seeHearin' that old lonesome highway song
I've been hearin' the diesel hum
She's runnin' againBack on the road I got a heavy load
Lookin' over my shoulder now
It's clear to L.A.It's been so long since I've seen my home
Got to get on down that road tonight
Freeways and highways and back roads and byways
Come on back you cotton picker youBreaker breaker take me home
Clear the highway for me
Breaker breaker take me home
You know the one I wanna seeBreaker breaker take me home
Clear the highway for me
Breaker breaker take me home
You know the one I wanna seeBreaker breaker take me home
Clear the highway for me
Breaker breaker take me
