

The World And You Tonight

Simply Red

Don't rush around
The world will wait for you
And too much time is lost
On all the things we have to do
There's nothing more important, baby
Right now than you and me
So come a little closer, darling
And turn the lights down low a key
And life could be so wonderful
A perfect home and a family
When you're lying next to me
I'm everything I want to be
With the world and you tonight
With the world and you tonight
With you, my love
The world's a better place
And every day with you
Will hold a treasured memory
Your embrace
Could steal me forever
And nothing else matters
When I hold you in my arms
And life could be so wonderful
Perfect home and a family
'Cause you are everything to me
I'm the lock and you're the key
To the world and me tonight
(You are my world)
To the world and me tonight, oh, to the world
(Oh, you are my world)
It's the world and me tonight
(You are my world)
With the world and me tonight
(Oh, you are my world)
Oh, it's the world
You are my world
It's the world with me
