# Lina Magic (Skins Theme Song)

## 3D Friends

I only have memories of you
We were just kids, we met at a school
And you wrote your name onto my paper bill
And it's been with me for well over ten years

Did I waste too much time?
Did you make up your mind?

I wonder what you are like today
And if I'll ever get to feel your face
If I could go back I'd change a lot of things
And I'd make a butterfly flap it's wings

I'd change our course
I'd change our time
And who knows what things would have been like this time
And maybe one day you will hear this song
I just hope that it won't take too long

Did you make up your mind?
Did I waste too much time?

I just hope that it won't take too long.
