

# Ready For Love

[Jon Secada](#)

Moments, comments  
Then one thing that you said  
Did it again  
Turned our world upside down again  
I surprised you, I surprised myself  
Is this what we need?  
I don't wanna stop  
(I can do this, I am ready I know I can do this)  
I don't really wanna stop this  
(I can love you like no other, I can)  
Ready for love, I feel fine  
I feel just fine, ready for love  
Rebounded, founded  
What I hope is missing in me  
I'll admit this is new to me  
Did I catch you at a bad time?  
Do I ask too much?

I don't wanna stop  
(I can do this, I am ready I know I can do this)  
I don't really wanna stop this  
(I can love you like no other, I can)  
Ready for love, I feel fine  
I feel just fine, ready for love  
I surprised you, I surprised myself  
Is this what we need?  
I don't wanna stop  
(I can do this, I am ready I know I can do this)  
I don't really wanna stop this  
(I can love you like no other, I can)  
I feel fine  
(Ready for love)  
I feel just fine  
(Ready for love)
