I've Got You Memorized

Ivy

I..have had enough
its just so tired
its got to end
i have figured out what your about
lets not pretend
(its true, its true)..
dont u realize
ive got you memorized
(its true , its ture)
i see it in your eyes when you start telling lies
its true its true
dont u realize
ive got you memorized
(its true , its ture)
i see it in your eyes when you start telling lies
please dont push ur luck.
its all used up for good this time
please its got to stop
i know whats just on your mind
dont u realize
ive got you memorized
(its true , its ture)
i see it in your eyes when you start telling liesyour mind must be racing when u get outta bed
i can only imagine what goes in yuor head
you dont say what you mean and you dont know what you say
instead of staying nothign make up somethng instead
its true..dont u realize
ive got you memorized
(its true , its ture)
i see it in your eyes when you start telling lies
