My LIttle Brother

Impossible Hair

My little brother just discovered rock and roll
My little brother just discovered rock and roll
My little brother just discovered rock and roll
There's a noise in his head and he's out of controlAnd yes, it frustrates
Let's let him make his own mistakes
On the dance floor watch him go now
Boy, those moves, I just don't know howMy little brother just discovered rock and roll
My little brother just discovered rock and roll
My little brother just discovered rock and roll
He's only twenty two and he's out of controlHow's he living?
With all of that unforgiving
On the dance floor watch him go now
Boy, those moves I just don't know howMy little brother just discovered rock and roll
My little brother just discovered rock and roll
My little brother just discovered rock and roll
There's a noise in his head and he's out of controlHe no longer listens to A-sides
He made me a tape of Bootlegs and B-sides
And every song, every single song on that tape
Said exactly the same thingWhy don't our parents worry about us?
Why don't our parents worry about us?My little brother just discovered rock and roll
My little brother just discovered rock and roll
My little brother just discovered rock and roll
He's only twenty two and he's out of controlMy little brother just discovered rock and roll
My little brother just discovered rock and roll
My little brother just discovered rock and roll
There's a noise in his head and he's out of controlMy little brother just discovered rock and roll
My little brother just discovered rock and roll
Stay off the crack
