

Little Darling Pal of Mine

The Early Mays

In the night while you lay sleeping dreamin' of your amber skies, was a poor boy broken hearted listening to the
winds that sigh

(Chorus)

little darlin' how I love you, how I love you and can tell, in your heart you love another little darlin' pal o' mine

Many a day with you I brambeld, half past hours with you I spent, thought I held your heart forever, now I find
its only lent

(Chorus)

little darlin' how I love you, how I love you and can tell, in your heart you love another little darlin' pal o' mine

There are just three things I wish for that's my casket shroud and grave. when I'm gone, don't weep for me, just
kiss those lips that you betrayed.

(Chorus x2)

little darlin' how I love you, how I love you and can tell, in your heart you love another little darlin' pal o' mine
