

# Define You

## National Skyline

I wanna defy you and  
I wanna pretend  
I want to define you and  
I want you to pretend you want me to, I know you don't  
And I want you to think I won't

I went in your car and I searched for a way  
To get in your heart  
'Cause I want you to pretend you want me to, I know you don't  
And I want you to think I won't
