Bif Naked

I got a boyfriend, he's a bad boy
He is my favorite, he is my joy
I got a boyfriend, danger boy!
He's got a girlfriend, she is my toy
Sometimes he'll twitch for no reason
It's just a twitch and it's part of his style
He tells me I'm his one and only
I'm the only one making him smile
Sometimes he'll twitch for no reason
It's just a twitch and it's part of his style
When he's feeling sad and lonely
I'm the only one driving him wild
He really likes me, he likes my mom
He buys me ice cream, he likes my song
He has a nice car, I buy his gas
But in the back seat, he moves too fast
Sometimes he'll twitch for no reason
It's just a twitch and it's part of his style
He tells me I'm his one and only
I'm the only one making him smile
Sometimes he'll twitch for no reason
It's just a twitch and it's part of his style
When he's feeling sad and lonely
I'm the only one driving him wild
I'm the only one driving him wild
I'm the only one driving him wild
I'm the only one
My boyfriend's back
And you're gonna get in trouble!
Sometimes he'll twitch for no reason
It's just a twitch and it's part of his style
When he's feeling sad and lonely
I'm the only one
Sometimes he'll twitch for no reason
It's just a twitch and it's part of his style
When he's feeling sad and lonely
I'm the only one driving him wild
Sometimes he'll twitch for no reason
It's just a twitch and it's part of his style

He tells me I'm his one and only
I'm the only one driving him wild
Sometimes he'll twitch for no reason
It's just a twitch and it's part of his style
He tells me I'm his one and only
I'm the only one driving him wild
Sometimes he'll twitch for no reason
It's just a twitch and it's part of his style
He tells me I'm his one and only
I'm the only one driving him wild
Sometimes he'll twitch for no reason
It's just a twitch and it's part of his style
He tells me I'm his one and only
I'm the only one driving him wild
Sometimes he'll twitch for no reason
It's just a twitch and it's part of his style
He tells me I'm his one and only
Shake it baby, shake it
